[ASSOCIATED PRESS NIGHT REPORT.]
PORT AU PRINCE, Dec. 13.—The steamship Virginia with 116 exiles on board, including Gen. Firmin, arrived here today.

Gen. Firmin was welcomed by representatives of Gen. Simon and rode to the palace, in the Presidential carriage. There the distinguished revolutionist told Gen. Simon that he had surrendered all ambition for political preferment. He had twice attempted to rid his country of the despotic tyranny exercised over it by Nord Alexis, he said, and had failed, and it was only natural that Gen. Simon, who had succeeded in this same effort should be rewarded.

He urged all Haytiens to rally to the support of the Liberal government and predicted that Gen. Simon would lift the country to prosperity and power by achievements of peace and liberty.

implied admonition to keep quiet and wait until next election, when they will have proper opportunity to make themselves heard and to make their views prevail if they have the majority with them. Saturday morning we advised our readers to peruse carefully the address of former Gov. Gage, delivered at the unveiling of the memorial erected by the people of California to the late Senator Stephen M. White. We feel confident that this admonition fell on open cars, and found its way to willing, cordial minds. We feel content that Mr. Gage's exposition of the views of Senator White found lodgment anew in the minds of many citizens of this community.

It was timely in the extreme that the views of the able lawyer, the distinguished statesman, whose voice always commanded attention here, should be called to mind. Since the days when "Our Steve" was an oracle in this State a great company of New Lights have aprung up. These "impractical reformers," as Abraham Lincoln called them, are particularly numerous among those who vainly, ignorantly claim to be political disciples of Senator White as they claim to be followers of Thomas Jefferson. But this impractical "reform" notion has spread into the ranks of all Socialists of all shades without exception, so far as we have been able to observe. It exists in the mind of most Populists. Those so-called Democrats who lean strongly to Socialism, and who differ so little from Populists, entertain these fads as welcome guests. Many falsely-called Republicans have given those fads an asylum in their confused minds.

It was pleasing to hear ex-Gov. Gage call attention to the well-known fact that Stephen M. White has been trying to teach during all this revolutionary period, so Senator White, we are reminded, always held that this is a representative republic, in which the government is conducted by representative men chosen by the whole body of citizens, and bound by oath to perform their functions in due conformity to the Constitution; that while obedient to the organic law and duly

According to take a runner, and not sear enough to jab a knife in near the jugular vein, and the states advices from Washington the demands of the Philippines on our sympathies will be the point where the friction will be most pressing. We are not annuincitiol of the claims these people have upon us, or of the lively interest of the Pression will be most pressing. We are not annuincitiol of the claims these people have upon us, or of the lively interest of the Pression of the Philippine lalands we necessarily return to the greater interests of the people of the United States. To us the place where the weight of reason and of sentiment is most pressing is where California is directly concerned. Next to this is the bearing of the question on the people of the United States generally.

There is no obligation except a moral one for us to take care of other than our own people. Our interest in them cannot be much more than estimated woods the proper object of the principal outweigh ours to them.

There is another point of view not be let out of sight. The feeling of hostility to what is known as the sugar trust will influence many in forming their judgment. But in aiming at what we consider inimical to us, we must be careful that the range of the missile does not past through the persons of our friends and fail to reach the proper object of our attack. The sugar trust does not grow sugar bests. That industry is carried on by a great best will be lower. That is inevitable, for any trust. The unjust trust are to be reached in another way.

The United States produces about a billion and a quarter tons of sugar annually, of which considering the produce of sugar bests. The unjust trust are to be reached in another way.

need of modification lies in the direction of making

ing a rush to his goal, when one on the other side, feeling unequal to the task of tackling the runner, whipped out a knife and stabbed his rival in the neck. That was effective.

So, perhaps, this is what will be done hereafter. Such tactics may be included in the rules. And as the knife, although handy, is not far-reaching, why not arm each husky player, thick of neck, brawny of muscle, short on nerves and sentiment, with a revolver, and make it according to rule that any player who is not able to tackle a runner, and not near enough to jab a knife in near the jugular vein, shall have the privilege of shooting the fellow who has the ball—better through the head than the legs?

There is almost an infinite vista of possibility opened up here. It might be well to appoint Francis J. Hency umpire of the gun play, and clothe him with due authority, so that in case any player is not prompt in drawing his "weepon" and precise in his aim he shall be shot by the umpire. This would eliminate mollycoddles out of football and secure a survival of the fittest—to emulate the most savage of the brute creation.

Cheked Flue.

An attempt to burn out a soot-choked flue in an apartment house at No. 52 West Sixth street resulted in a dangerous fire, late yesterday afternoon. An awning in the rear of the building was ignited and the flames attacked the walls, keeping the fire department busy for nearly an hour.

A Japanese servant found that a flue in one of the apartments was stopped up and he stuffed oil-soaked papers in it and set them affre.

The awning was half destroyed before any one noticed that it was ablase. A telephone aliarm was turned in, and most of the downtown companies answered. The fire in the walls did not do much damage, but it took a great deal of work to extinguish it. The loss is estimated at \$150.

[LASSOCIATED FRESS NIGHT REPORT.]

HELENA (Mont.) Dec. 12.—A special from Hamilton, Mont., says:

"That bovert Smith did not die when he attempted suicide at Playins, was made known here yesterday when Sheriff Ward received a message from the Sheriff of Sanders county telling him that Smith was not dead and asking him to come and get him. Smith is charged with murder, having shot Clarence Clark at Victor, where the two were employed upon triggstion ditch. In a note found in his pocket, Smith admitted the killing of Clark."

The town, which a little more than two years ago was desolate desert, showed these visitors an entire business district built of solid brick blocks, and a city of fully 2000 population, with one of the finest hotels in the entire Southeastern California and all the conveniences of a city ten times its size.

Man Who Threatened to Sue Local Officers for False Arrest Gets Eighteen Years in Prison.

Advices were received here yesterday from Clarksville, Tex., of the sentence there of Jem Cox, allas William McClain, to a term of eighteen years in the penitentiary on one of eleven charges of horse-stealing. Cox was arrested in Los Angeles a few weeks ago by Deputy Sheriks Harry Wright and Joe Sepulveda, as a fulfittve from justice fin Texas. At that time he declared the officers had taken the wrong man, and his threats were dire of the trouble he would cause the local officers upon the release be said would be coming to him on his return to Texas. He boasted that he would sue for heavy damages for false arrest. After his capture, Cox was taken ack by Sheriff Weaver of Clarksville, who was positive in the identification of the man.

EROPLANIST A HAS HIGH HOPES.

SHIP WILL BE HIDDEN BEHIND

So confident is J. S. Zerbe that his aeropiane will fly that he is preparing to give a demonstration this week of the working of his ship. The public will be invited to watch the gyrations of the craft which Zerbe declares will fly. The large number who have already visited the aeropiane liventor at Bimini Baths are taking a keen interest in his pians. He has been given every encouragement, and he is not the only person who believes the ship will sear into the other. This week Zerbe plans to demonstrate his heavier-than-air vessel. He will not make a high flight, even if the ship shows a tendency to soar into the heavens. He will be content to stay a few feet above terra firms. He does not want to gilde. He is auxious to navigate his craft through the air by means of his propeller, which is to be sent at terrific speed by his eight-cylinder motor.

This motor is the same which Curtise rode at Ormonds beach when his motorcycle made a world record on a straightaway course, for a mile. The eight cylinders which are ligged with two carbursters, develop a surprising amount of power. Zerbe gats about 300 revolutions out of his two-blade propeller, which is larger than the one on Knabenshue's alrahip. The inventor desires about 200 recolutions, and he believes he can get that many with his motor working just right.

The lifting power of the engine when the propeller is making 200° revolutions will be great enough, Zerbe says, to lift the machine, with two passengers in it. The inventor will be content if the planes will be great enough, Zerbe says, to lift the machine, with two passengers in it. The inventor will be content if the planes will be plane to inclose the novel ship within a high board fence.

VAUNTING AMBITION.

CHICAGO, Dec. 11.—(Exclusive Dispatch.) Carter H. Harrison is to be put into the running as one of the candidates for the Democratic nomination for Mayor in 1911. This was definitely decided at a secret conclave of Democratic leaders last night, according to information which came from the fountain head.

Greatest secrecy attended the round-up of the Harrison clans. It is understood that the definite announcement of the candidacy of Mr. Harrison is not to be made until after the aldermanic elections in April.
